DEVELOPMENT PRIORITY MIX

Emerging: 6 | Rising: 25 | Peaking: 50 | Fading: 41

Qualitative Forecut development assessments, not measured market shares. Emerging: test; Rising: develop; Peaking: core; Fading: reduce newness. Long-range labels are conditional scenarios.

HOW TO USE THIS REPORT

- Start with themes and category actions, then review each detail with its image, design notes, material guidance and lifecycle.

- Use the development calendar to plan sampling; validate costs, quality and customer response before volume orders.

- Images are design references and generated concepts. They do not establish provenance, exact garment specifications or future runway evidence.

RESEARCH & METHODOLOGY

Linked sources, evidence limits and review checkpoints

PDF bookmarks navigate the principal sections. Every active detail from this season is included; inactive entries are not silently presented as current recommendations.

THEME 1 / THE OCCASION WARDROBE, RECOMPOSED

The occasion wardrobe, recomposed

Scenario: an existing saree, skirt or kurta gains new life through a fresh layer. Current modular and lighter-occasion inputs support prototyping, not a prediction of guaranteed uptake.

BUILD THE RANGE

Detachable draped panels; separate capes; reversible occasion jackets; mixable saree blouses.

DEVELOPMENT NOTES

Make attachment points discreet and stress-test them. Check fit when parts are used independently.

COMMERCIAL ACTION

Pilot a wardrobe-refresh capsule beside complete looks. Compare attachment sales with unsold component stock.

RESEARCH INPUTS

FDCI | Aisha Rao, Preyasi | 2026-07-31

FDCI | Kunal Rawal, India Couture Week 2026 | 2026-07-28

THEME 2 / HEIRLOOM SURFACES, MODERN PLACEMENT

Heirloom surfaces, modern placement

Scenario: restrained craft placement makes premium pieces easier to wear again. Heritage should be credited rather than reduced to a generic luxury claim.

BUILD THE RANGE

Narrow woven borders; tonal Bandhani; placed Kantha-inspired handwork through the appropriate maker partnership.

DEVELOPMENT NOTES

Approve stitch density and motif placement on actual size sets. Build traceability and artisan payment into sourcing briefs.

COMMERCIAL ACTION

Test one craft family across a limited range. Validate lead times and gross margin after handwork and finishing costs.

RESEARCH INPUTS

FDCI | Arpita Mehta, India Couture Week 2026 | 2026-07-28

Première Vision | AW27-28 season overview | September 2026 edition

THEME 3 / REPAIRABLE OCCASION SHINE

Repairable occasion shine

Scenario: aftercare becomes part of the premium proposition. Reflective couture offers a visual reference but creates particular durability and storage challenges.

BUILD THE RANGE

Replaceable decorative panels; removable brooches; controlled metallic accents; spare embellished patches.

DEVELOPMENT NOTES

Test abrasion, humidity exposure, trim replacement and packing. Supply a realistic care card and repair route.

COMMERCIAL ACTION

Keep experimental materials in made-to-order or limited runs. Expand only after repair and defect costs are understood.

RESEARCH INPUTS

FDCI | Rimzim Dadu, India Couture Week 2026 | 2026-07-28

Textile Exchange | Materials Benchmark Insights and Trends 2026 | 2026 report

THEME 4 / LOCAL MAKING, CONTEMPORARY SHAPE

Local making, contemporary shape

Scenario: recognisable local techniques pair with contemporary separates. The opportunity depends on supply reliability and demonstrated customer interest.

BUILD THE RANGE

Light craft jackets; textured straight kurtas; draped skirts with pockets; simple occasion footwear.

DEVELOPMENT NOTES

Obtain material and process records. Fit-test for movement and avoid unsupported recycled, regenerative or biodegradable claims.

COMMERCIAL ACTION

Use pre-orders or small pilots to learn about demand. Revisit the range after 2027 and 2028 Indian shows.

RESEARCH INPUTS

CATEGORY OPPORTUNITIES

Build the assortment

WOMENSWEAR

Explore reconfigurable saree and skirt outfits and placed craft. Avoid extending today's trend curve automatically into 2028.

MENSWEAR

Explore contemporary jackets, draped accessories and comfortable occasion trousers; test regional temperature needs.

FUSION & WESTERN

Explore component-led occasion capsules that work with existing wardrobe basics. Validate mix-and-match fit and styling clarity.

FOOTWEAR

Explore repair-friendly occasion flats and removable decorative elements where safe; wear and snag testing come first.

TEXTILES & TRIMS

Prioritise verifiable origin and repeatable quality. Keep novel material development conditional on testing and commercial supply.

DEVELOPMENT CALENDAR

From concept to delivery

JULY-DECEMBER 2027

Check Indian couture, festive retail and trade-fair developments; replace unsupported scenarios.

JANUARY-MARCH 2028

Validate target customers, price tolerance and suppliers; approve initial prototypes.

APRIL-JULY 2028

Run wear, repair and quality tests; lock only proven options and verified festival delivery windows.

AUGUST-DECEMBER 2028

Monitor sell-through and returns by event and region; record which hypotheses actually performed.

WHAT WOULD CHANGE THIS FORECAST?

- Do not use 2026 couture as proof of 2028 mass-market adoption.
- Stop material experiments when safe care or repair cannot be offered.
- Replace this scenario with direct 2028 evidence as it becomes available; next planned research checkpoint: July 2027.

RESEARCH & METHODOLOGY

Evidence, with context

Forecut editorial forecasts synthesise public Indian designer interviews, international SS27 show notes, textile-trade coverage and brand collections. Runway presence is not sell-through. Lifecycle labels are qualitative development priorities, not measured market shares. 2028 entries are conditional scenarios; no 2028 runway or sales evidence is claimed. Palettes are original Forecut working colours, not an official colour authority forecast. Festival groupings are merchandising windows, not verified religious dates; Eid timing requires a separate calendar check.

IMAGE PROVENANCE

Season cover: original AI-generated Forecut concept art, October 2026. Detail pages: existing Forecut reference imagery. New propositions use an explicitly labeled related silhouette where an exact image is unavailable. No generated image is presented as a designer runway photograph.
